Wall space requirement
19' x 12'

Create magical learning moments

WHAT IS LÜ?

• Lü's educational system offers audiovisual installations and develops content that transforms physical education programs for children aged 5 to 12.

• Lü allows children to move around and work together, encouraging cooperation and collaborative learning.

WHY LÜ?

• Less than 10% of children are doing enough physical activity.

• Diversifying learning and teaching modes is one of the main challenges of Education.

• Social-emotional and physical skills are often neglected when integrating technology.

CONFIGURATIONS

Lü systems include a projector, a movement detection camera and a light and sound module to create magical immersive spaces.

Üno |Ceiling-mounted wall configuration

Combine 2 Ünos in a Düo configuration for a full-scale space made of two projection surfaces.

Möbil |Moveable single-wall configuration
